Regional Digest of Statistics, 2024-25

(Jammu Division)

26th Edition

**Regional Directorate Evaluation and Statistics
Jammu**

Message

It gives me immense pleasure to present the Regional Digest of Statistics, 2024–25, the 26th edition in this distinguished series of annual publications. Over the years, this flagship publication has emerged as a credible and comprehensive compendium of statistical information, offering an in-depth analysis of the socio-economic landscape and developmental progress of the Jammu region.

In the present era of data-driven administration, such publications play a crucial role in enhancing transparency, accountability, and efficient public service delivery. The Regional Digest not only documents achievements but also provides valuable insights into emerging trends and developmental priorities of the region.

I commend the dedicated efforts of the Regional Directorate, Evaluation & Statistics, Jammu for their professionalism and commitment in bringing out this important publication. Their sustained efforts in maintaining accuracy and consistency in statistical reporting are highly appreciable.

I am confident that this edition of the Regional Digest of Statistics will serve as a vital reference document and continue to support informed decision-making and policy formulation for the overall progress and prosperity of the Jammu region.

(Ramesh Kumar), IAS
Divisional Commissioner, Jammu

Foreword

The *Regional Digest of Statistics* stands as one of the flagship regional-level publications of the Directorate of Economics & Statistics, J&K. It provides a comprehensive overview of key socio-economic indicators and the demographic profile of the region in a systematic, well-structured, and user-friendly format. The publication is designed to serve as a ready reference for stakeholders seeking authentic and consolidated statistical information.

The current issue of the *Regional Digest of Statistics (2024-25)* pertaining to Jammu Division marks the 26th edition in this important series. In this edition, special efforts have been made to enhance the presentation and analytical value of the document through the inclusion of graphical representations and visual summaries of selected indicators, enabling quick assessment and better understanding of trends and patterns.

It is expected that this publication will continue to serve as a valuable tool for policymakers, planners, researchers, academicians, administrators, and other stakeholders engaged in the socio-economic development of Jammu & Kashmir. By facilitating evidence-based decision-making and strategic planning, the Digest contributes meaningfully to the overall development process of the region.

I sincerely appreciate the dedicated efforts and professional commitment of the officers and officials of the Regional Directorate, Evaluation & Statistics, Jammu, who have been instrumental in the meticulous collection, verification, compilation, and presentation of data for the successful release of this significant publication.

(Satvir Kour Sudan)
Director General
Economics & Statistics, J&K

PREFACE

The Regional Directorate of Evaluation & Statistics, Jammu, plays a vital role in strengthening the statistical framework of the Jammu Division by systematically collecting, compiling, analyzing, and disseminating data across diverse sectors and departments. It gives me immense pleasure to present the 26th edition of the Regional Digest of Statistics, 2024-25. This publication reaffirms our continued commitment to provide accurate, reliable, and comprehensive statistical information that reflects the socio-economic landscape of the region.

The Regional Digest of Statistics serves as a valuable reference document, offering an integrated overview of developmental trends and sectoral performance across Jammu Division. It encompasses key indicators relating to demographic, social, economic, infrastructural, and developmental parameters, thereby enabling stakeholders to gain meaningful insights into the region's progress. The data presented herein is intended to support evidence-based policy formulation, informed decision-making, strategic planning, and effective implementation of development programmes.

This edition has been carefully compiled to ensure consistency, clarity, and relevance of statistical information. It is designed to meet the needs of government departments, planning authorities, research scholars, academicians, non-governmental organizations, financial institutions, businesses, and other data users.

I sincerely acknowledge and appreciate the dedicated efforts of the officers and officials of the Publication section who have meticulously worked towards the collection, validation, compilation, and presentation of statistical data for this publication. Their commitment and professionalism have been instrumental in bringing out this edition successfully.

Constructive suggestions and feedback from readers and users are most welcome, as they will help us further enhance the quality, coverage, and usefulness of future editions of this publication.

I hope that the Regional Digest of Statistics, 2024-25 will continue to serve as a dependable and valuable source of information for all stakeholders and contribute meaningfully to the developmental journey of Jammu Division.

(Ashu Gupta)
Director General
Evaluation and Statistics
Jammu

29.07	District-wise Haj information	267

CHAPTER – I

AREA AND POPULATION

A systematic and modern population census, in its present form was conducted non- synchronously between 1865 and 1872 in different parts of the country. This effort culminated in 1872 and was labeled as the first population census of India. However, the first synchronous census in India was held in 1881. Since then, population census has been undertaken uninterruptedly once every ten years. The first census of independent India was conducted in the year 1951 between 9th-28th February, 1951. In 1951, the entire UT of J&K was excluded from 1951 census and its population was estimated based on past census figures. From 1961 and onwards the population census was conducted on regular basis in the UT of J&K. However, due to unprecedented circumstances in the UT, the population census for the year 1991 could not be carried out. During 2001 & 2011, the population census was undertaken in J&K UT as a part of the all India programme.

This chapter portrays the demographic feature of all the 10 districts of the Jammu division based on following parameters:-

- i) Area and Population of Jammu Division;
- ii) Distribution of population according to sex and area;
- iii) Decadal variation in population;
- iv) Sex Ratio and density of population;
- v) Number of villages and towns;
- vi) Population according to important religions; and
- vii) Literacy rate by sex and area.

CHAPTER - II

HOUSING

Since ages, food, clothing & housing has always been on the essential list of a common person. The reason being that food, clothes and houses are vital for human development, which can be judged from the fact that food provides nourishment to human body, clothes salvages it and houses saves it from harshness of nature.

With population explosion, the problem of housing has become more serious. Prepare housing is must as it catapults the productivity of labour and it is a basic human right. Keeping this point of view in mind the Government has been trying its best within the limited resources to provide shelter to man.

The present chapter envisages the information regarding the housing conditions in Jammu division in light of census 2011.

Table No: 2.00 reflects no. of Census houses classified by use according to population census 2011

Table No.2.01 reflects the households by the condition of census houses occupied by them-2011.

Table No.2.02 reflects Households, Houseless and institutional population-2011

Table No.2.03 reflects the distribution of Households by type of census houses occupied-2001

CHAPTER-III

CLIMATE

Indian Metrological Department is the central agency which records and archives rainfall data via its network of observatories throughout the country. The data related to rainfall received is maintained on daily basis. The daily rainfall is recorded at an observatory for the preceding 24 hours ending at 8.30 hours of the date of the measurement. The maximum and minimum temperature is recorded at the observatories at 8.30 and 17.30 hours (IST) respectively.

This Chapter describes information regarding Mean Maximum/Minimum temperature and rainfall recorded at various stations in Jammu Division.

Table 3.00

This table gives information regarding number of rainy days and rainfall data recorded by Regional Meteorological Centre.

Table 3.01

This table gives information regarding mean maximum/minimum temperature recorded at Jammu station by Regional Meteorological Centre.

CHAPTER-IV

FISHERIES

Fish being “rich food for poor people” is well placed to make an important contribution to Millennium Development Goals. While the most obvious contribution is in terms of food security and livelihood, it also has an important nutritional role in reducing child mortality, improving maternal health and combating diseases. Fisheries also contribute indirectly to several of the other Millennium Development Goals through improved nutritional status and enhanced livelihood and gender equality through women’s fish related livelihood activities.

Fishery is primarily associated with raising and harvesting of fishes in marine and fresh waters. The nature has bestowed our UT with the abundance of fresh water, which has motivated the department of fisheries to raise and harvest fishes in fresh water sources like rivers, lakes, ponds and reservoirs. Fishery has been playing a fundamental role in socio-economic development, augmentation of food supply, generation of employment, raising nutritional levels and earnings of foreign exchange. The ever increasing demand of fisheries as source of food has motivated the department to initiate the various programmes like stocking of water bodies, introduction of imported seeds, better medications, etc. that has led unprecedented growth in fish production. On the employment front, the directorate of fisheries has stated supporting the unemployed youth by way of helping them to establish fish reservoir’s/ponds, provisions of fish seeds, technical knowledge, and incentive in the shape of subsidy. Department of Fisheries has found a unique way of creating awareness among masses, especially children about the fishes and fisheries by establishing awareness cum-recreational center viz. underground aquarium at Bahu Fort, Jammu.

Table No: 4.00 contain data on Number of Fishing License holders, Fish farms and production in Jammu Division.

Table No: 4.01 depicts the Fish Production in Jammu Division.

CHAPTER-V

EDUCATION

Education is simply the soul of a society as it passes from one generation to another. It is thus an institution, which plays a vital role in integrating an individual with his society and in maintaining the perpetuation of culture. Education thus is an essential pre-requisite of modernization. It enables people to know the world beyond their own surroundings and transform them to become rationalist and humanist in outlook and world view. It also empower people with due skills thus giving them access to productive employment. In consonance with this idea J&K UT adopted National Education Policy with the main aim of expansion on Education Infrastructure in far flung area thereby curtailing dropout rate and gender disparity, mismatch between education and employment etc. There has been considerable improvement in pupil teacher ratio, trained and untrained teachers which has resulted in the overall betterment of the education scenario.

This Chapter presents data regarding District-wise number of educational institutions classified further by categories and students on roll. Parameters reflecting the pupil-teacher ratio, trained and untrained teachers etc. have also been projected in this Chapter.

Table No. 5.00

This is a summary table giving data regarding Year-wise No. of Institutions for General Education (Govt. + Private).

Table No.5.01

This table represents District-wise Enrollment in Institutions for General Education-(Govt. + Private).

Table No.5.02 This table represents Year-wise Number of Teachers in (Govt. + Private) institutions.

Table No.5.03 This table depicts the year-wise qualification wise number of Trained Teachers in all schools-(Govt. + Private).

Table No.5.04

This table depicts the year wise/qualification wise number of Un-Trained teachers in all schools-(Govt. + Private).

Table No.5.05

This table depicts the District- wise Teacher-Pupil and School-Pupil Ratios in Educational Institutions.

Table No: 5.06

This table depicts the Year-wise Number of trained/un-trained Teachers in General Education.

Table No.5.07

This table shows District-wise Enrollment ratio of SC & ST to total enrollment.

Table No.5.08

This table shows Year-wise Schools with Access to Computers.

Table Nos.5.09

This table shows District-wise Number of Schools with drinking water, separate toilet and electricity facilities.

Table No.5.10

This table shows Year-wise/District- wise number of Children Served Mid-Day Meals.

Table No.5.11

This table shows Status of Clubbed Schools in Jammu Division (Year wise/District wise).

Table No.5.12

This table shows Status of GER, NER and Dropout rate of Students (Year wise/District-wise).

CHAPTER –VI

HEALTH AND FAMILY WELFARE

Improvement in the standard of living and health status of the population is one of the important objectives in State Planning. The Health Planning in the UT has reflected long term vision which is being achieved through improving access to and utilization of Health Services, Family Welfare and Nutrition Services with special focus on under-served and under-privileged segments of the population. Better infrastructure, drugs and equipment, augmentation of human resources for health services have all led to improvement in delivery of health services. Most of the people of Jammu & Kashmir, as elsewhere in India, depend on public health facilities. Despite rapid development in the recent years, the health sector confronts challenges in terms of wide social and regional disparities. In recent years, Jammu & Kashmir has made significant progress in meeting some of these challenges. This may be attributed to increased expenditure on health, expansion of health infrastructure, as well as constant and effective monitoring of the health services. The healthcare facilities have broadly two aspects – preventive and curative healthcare. The former include diet, hygienic environment, sanitation, access to safe drinking water etc. On the other hand, curative healthcare includes availability of health facilities that ensure successful healing.

This chapter reflects the basic details of the health care system available in Jammu Province like total number of Primary, Secondary and Tertiary care health institutions, staff strength, bed strength and allied details.

Table No: 6.00 District-wise Number of Health Institutions 2024-25.

Table No:6.01 envisage the District-wise Number of Private registered Hospitals with Bed Strength 2024-25.

Table No: 6.02 illustrate the Year-wise/District-wise Bed Strength of Hospitals.

Table No: 6.03 Shows Bed strength in Hospitals & other Health Institutions run by Govt. during 2024-25

Table No: 6.04 shows District-wise number of Sterilizations made during 2024-25.

Table No: 6.05 shows District-wise number of Conventional Contraceptives and oral pills made during 2024-25.

Table No: 6.06 & 6.07 exhibits District wise Patients Treated & Operations performed (excluding Associated hospitals).

Table No: 6.08 shows the Year-wise/District-wise No. of Medical Personnel available in 2024-25.

Table No: 6.09 shows Institution-wise No. of Medical Personnel available in -2024-25 in Associated/other Govt. Hospitals.

Table No: 6.10 reflect the District-wise availability of on Road Ambulances in 2024-25

Table No: 6.11 envisages Year-wise/District-wise Full Immunization.

Table No: 6.12 Year-wise/District-wise Institutional Delivery.

Table No: 6.13 depicts District-wise Pregnant Women received 4 or more ANC Checkups + TT2Booster + 180 IFA.

Table No: 6.14 shows District-wise Health and Wellness Centres.

Table No: 6.15 shows District-wise Golden Cards Issued under ABPMJAY/ SEHAT Scheme.

Table No: 6.16 shows District-wise sample Lifted/Tested for the year 2024-25.

Table No: 6.17 shows District-wise Inspection Conducted for the year (2024-25).

Table No: 6.18 shows District-wise Prosecutions Launched and Cases decided by the Court for the year 2024-25.

Table No: 6.19 shows District-wise licence issued for the year 2024-25.

CHAPTER VII

ROAD & BUILDING

In today's modern era, effective connectivity forms the very basic element of socio – economic development; one among them is efficient road network that helps in trickle down the benefits derived from economic growth & development to the remotest part of the country/region. The transportation of goods especially whose shelf life is short could only reach its destination in time, if there is good road connectivity. Besides, the construction of buildings especially schools, hospitals etc. also help in upliftment of the society/country as a whole.

As far as J&K UT topography is concerned, the only medium that makes accessibility possible to far-flung areas are roads, be it National Highways, State Highways, District Roads etc. The improved road connectivity to such areas has led to an increase in possibility of investment; thereby paving the way for the development of such areas. Public Works Department, which is also known as Roads and Building Department, is the chief agency of the Government of Jammu & Kashmir, which is engaged in planning, designing, construction/restoration and maintenance of Roads, Buildings and other government assets. The present chapter portrays the information on categories of roads along with their length, rates of building material, wage rates etc of Jammu Division.

Table 7.00 depicts the District-wise/Category-wise road length maintained by PWD (R&B) Department Jammu

Table 7.01 District-wise/Category-wise road length maintained by BRO (excluding NH) Jammu.

Table 7.02 District-wise/Category-wise road length maintained by other departments Jammu.

Table 7.03 gives out information regarding District-wise Targets/Achievements under PMGSY.

Table 7.04 reveals the Status of Bridges, Tunnels and Flyovers (District-Wise).

Table 7.05 shows Rate of building material (Public Sector) 2024-25.

Table 7.06 shows wage rates of building construction workers (Public Sector) 2024-25.

CHAPTER VIII

ROAD TRANSPORT

Transport on road can be roughly grouped into the transportation of goods and transportation of people. In the initial stage of civilization, medium of transportation was limited to horses, oxen and even humans that barely required well-defined roads. However, with the advent of development and the need to reach out to the far-flung areas and to cater socio- economic & political motives the development of roads have become essential. The nature of road transportation depends upon the degree of development of the local infrastructure, on the distance the goods are to be transported, the weight & volume of the individual shipment and the type of goods transported. If the goods are to be transported to short distances & are small shipments, a van or pickup truck may be used and if the shipments are large, a truck is more appropriate. For inner city, delivery of small package & document is done via bike courier. On the other hand, people are transported on road either in individual cars or in mass transit by bus. There is also specialist mode of transport for particular situations such as ambulance etc. Due to manifold increase in number of vehicles, the existing road infrastructure seems to be lagging behind. Lack of proper road infrastructure has further intensified accidents on roads. The UT of Jammu & Kashmir is not an alien to such issue. In order to decongest the roads and for smooth play of transportation, the Govt. of Jammu and Kashmir has initiated many new projects in both the divisions of the UT.

This chapter contains the information regarding the number of road accidents, people killed in such accidents, number of vehicles registered etc. in the Jammu Division.

CHAPTER-IX

AGRICULTURE

Agriculture plays a vital role in the economic development and growth of a country predominantly agriculture in nature. Around 58 per cent of the rural households in India are dependent on agriculture as their principal source of livelihood. In recent times, the agriculture has not only donned the role of satisfying domestic needs, but has also emerged as one of the main stay of export earnings for the country.

As far as UT of Jammu & Kashmir is concerned nearly 80% of the population is engaged in agriculture and allied sectors. The agro- climatic diversity of the UT varying from sub-tropical in Jammu, temperate in Kashmir and cold arid in Ladakh makes it ideal for varied cultivation. The overall contribution of the agriculture and its allied sectors in the overall Gross State Domestic Product at constant price 2011-12 as per advanced estimates stands at 15.89%.

This Chapter contains tables regarding pattern of land utilization, area, pattern of operational holdings and average yield of principal crops in Jammu Division.

Table No. 9.00

This table presents data regarding area classified by categories of land utilization, which are explained below.

1. Area according to village papers:

Area according to the village papers comprises the reported area or the Cadastral Surveyed Area i.e. the area for which data on land use classification are available. The village Patwari prepares the estimates of the reported area. It does not correspond to the total geographical area of Jammu Division, as the Revenue Department does not maintain the record of such areas as are not fit for habitation. The area maintained by the Forest Department also does not form a part of the reported area.

2. Forests

They cover the Barren land forests viz, the forests falling outside the forest area demarcated by the Forest department for maintenance.

3. Land put to Non-Agriculture Uses.

It consists of the entire land occupied by the Buildings, the Rivers, the Canals and the other lands put to use other than Agriculture

4. Barren and Un-cultivable land.

It includes all barren and un-cultivable land like mountains, deserts etc. Land, which cannot be brought under cultivation except for at exorbitant costs, is also included in this category.

5. Permanent Pastures and Other Grazing Lands

All grazing lands whether they are permanent pastures and meadows or not, are categorized as permanent pastures and other grazing lands. They also include the common grazing lands in the village.

6. Land under Miscellaneous Tree Crops etc

This category constitutes the cultivable land not included in the net area sown, but put to some other agricultural use; like the land under thatching grasses, bamboo bushes and other groves for fuel etc. not including under orchards fall under this category.

7. Culturable Waste

This includes the land available for cultivation irrespective of the fact, whether it has been taken up for cultivation once but not cultivated during the current year and the last five years or more in succession for one reason or the other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. It may be assessed or un-assessed and may be in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category at the end of five year.

8. Fallow Land Other Than Current Fallows

This category includes all such lands as were taken up for cultivation but remained temporarily out of cultivation for a period not less than one year and more than five years due to any of the following reasons:-

- i. Poverty of cultivator;
- ii. Inadequate supply of water;
- iii. Silting of canals and rivers, and
- iv. Remunerative nature of farming.

9. Current Fallows

This category represents the cropped area, which is kept fallow during the current year. For example, if any seedling area is not cropped again in the same year, it is treated as current fallow.

10. Net Area Sown

It comprises the total area sown with crops and orchards counting only once, the area sown more than once in the same year.

11. Total Cropped Area

Total cropped area represents the total area covered with crops i.e. the sum total of area covered by all the individual crops. The area sown with crops more than once during the same year is counted as separate area for each crop.

12. Area sown more than once

It includes the area on which crops are cultivated more than once during the agricultural year and is obtained by deducting the Net Area Sown from the Total Cropped Area.

Table No. 9.00 reflects Agriculture at Glance.

Table No. 9.01 reflects year-wise/District-wise Total area & its classification.

Table No. 9.02 reflects year-wise/District-wise area sown under different crops.

Table No.9.03 reflect District wise statement showing number of Holding by size classes 2015-16.

Table No. 9.04 reflects Number and Area of Operational Holding 2015-16

Table No. 9.05 reflects Holdings by Size /Classes in Jammu Division 2015-16

Table No. 9.06 reflects year-wise/District-wise Production of food grains in (Qtls)

Table No. 9.07 & 9.08 reflects year-wise distribution of High Yield Variety of seeds Rabi and kharief

Table No. 9.09 reflects year-wise/District-wise honey /Mushroom Activity.

Table No. 9.10 reflects Year wise/District-wise Area under High Yielding Varieties.

Table No. 9.11 reflects Year-wise/District-wise Apiculture Activity.

Table No. 9.12 reflects Year-wise/District-wise Crop Insurance.

Table No. 9.13 reflects District-wise Kisan Credit Cards (KCC) Issued and Soil Health Cards Distributed.

Production of Food Grains in Jammu Division

CHAPTER – X

HORTICULTURE

Horticulture is the branch of agriculture mainly associated with plant propagation and cultivation. Its main aim is to improve plant yield, quality, and nutritional value, generate employment, improve economic conditions of the farmers & entrepreneurs, boost exports etc. Broadly speaking, horticulture is associated with the following three activities:

- a) Food crop – cultivation of fruits and vegetables,
- b) Non-food-crop-cultivation of grass and ornamental tree and plants, landscape and garden design etc.; and
- c) Cultivation of medicinal plants, seeds, flowers etc.

Jammu region is bestowed with conducive climate conditions like Temperate, Sub-temperate and Sub-Tropical for cultivation of different varieties of fruits like Apple, Pear, Plum, Walnuts, Apricot, Olive, Peach, Citrus, Mango, Ber, Guava and Litchi. In addition to the above, the initiation of cultivation of Strawberries in the districts of Jammu, Udhampur and Kathua has shown encouraging results. The role of Horticulture as a contributor to the State Domestic Product has changes drastically over the years. The area under cultivation is **1.29 Lac Hectares** approximately and the production of fruit has increased to **265.79 Thousand Metric tons** approximately (**2024-25**).

Table No: 10.00 depict the year-wise/District-wise/ kind-wise Area under Major Horticulture crops.

Table No: 10.01 depict the year-wise/District-wise/kind-wise production of Major Horticulture crops.

Table No: 10.02 shows the year-wise/District-wise fruits Plant nurseries, plants available/distributed and Equipment issued.

Table No: 10.03 Percentage of Mandis Linked to E-Mandis (year-wise/District-wise).

Table No: 10.04 year-wise/District-wise Soil Health Cards Distributed.

Table No: 10.05 District-wise Area Under High Density.

CHAPTER – XI

IRRIGATION

Irrigation is the artificial application of water to the land or soil .It is used to assist in the growing of agricultural crops, maintenance of landscapes, and revegetation of distributed soils in dry areas and during periods of inadequate rainfall. Additionally, irrigation also has a few other uses in crop production, which includes protecting plants against frost, suppressing weed growth in grain fields and preventing soil consolidation. Irrigation system is also used for dust suppression, disposal of sewage, and in mining. Irrigation is often studied together with drainage, which is natural or artificial removal of surface and sub-surface water from given area. Agriculture productions depend upon the proper and timely irrigation of crops. Irrigation, thus, forms the most important input for agriculture and an important parameter determining the course of our economy. Irrigation in Jammu division is carried out by way of canals, wells and various other sources. As against availability of 402.06 thousand hectares area, only 110.92 thousand hectare of net area sown has been brought under irrigation, which constitutes 27.58 per cent of the net area sown. Crop-wise /different source-wise Net Area brought under irrigation has been reflected in the tables contained in this chapter.

Table No: 11.00 provides Gross and Net Area irrigated from different sources (District wise).

Table No.11.01 gives Crop wise area irrigated (Year-wise/ District-wise).

Table No.11.02 gives Nature of Irrigation Schemes (year-wise/ District-wise).

CHAPTER-XII

LIVESTOCK, SHEEP AND ANIMAL HUSBANDRY

Since pre-historic times, livestock has played a dominant role in the development process of a human civilization. In today's era, wherever an economy is agrarian in nature the livestock becomes one of the driving force behind economic development. In such economies, it provides ample employment avenues and improves the nutritional levels of general masses.

In simple words, Livestock refers to the domestication of animals in an agriculture setting for production of commodities like milk, leather, fertilizer, fuel, transport and even clothes for financial gains. It is also associated with conversion of useless organic matter into a form, which is useful for man thereby reducing burden on environment.

In case of our UT, livestock forms one of the important sectors of an economy not only because it is one of the main contributor to state Domestic Product but also as an employment provider. Taking cognizance of this fact, the government has introduced various schemes that provide helping hand to the unemployed youths for undertaking activities such as poultry farming, dairy farming, sheep farming etc. for earning livelihood. To augment their efforts, the Directorate of Animal & Sheep has established animal and sheep breeding centers at different location in Jammu Division, which are concentrating on improving the quality of the animals & sheep. This present chapter envisages the district wise information regarding the no. of livestock & poultry, veterinary institutions & personnel, centers etc. of the Jammu province.

Table No: 12.00 provides data regarding Livestock & poultry population of Jammu Division as per livestock census.

Table No: 12.01 gives the District-wise account of veterinary institutions.

Table No. 12.02 provides information relating to the Year-wise/District-wise Natural covering of Artificial insemination and Birth records under Cattle Dev. Programme.

Table No: 12.03 provides Year-wise/District-wise No. of Veterinary Personnel.

Table No: 12.04 shows District-wise data regarding Milk, Meat, Egg, Poultry and Wool production.

Table No: 12.05 contains data regarding Year-wise/District-wise Animals Treated and percentage of vaccination.

Table No: 12.06 depicts data regarding Year-wise/District-wise Intensive Poultry Development.

Table No: 12.07 depicts Year-wise/District-wise Animal Treated /Operations Performed in Jammu Division.

Table No: 12.08 depicts Year-wise/District-wise number of Animal Slaughtered.

Table No: 12.09 depicts Year-wise/District-wise Integrated Sheep Development Scheme.

Table No: 12.10 depicts Year-wise/District-wise number of Eggs & Poultry Market.

Table No: 12.11 depicts District-wise number of Sheep Farms, Centres and Animals in sheep Farms.

CHAPTER-XIII

POWER

Power holds a key to any development effort. It is an essential component for sustained economic growth and development. The most important hydro power project under State sector in Jammu division is Chenani hydro with installed capacity of 32.80 MWs generating about 56.15 (in Lus) unit power. Jammu division is mostly hilly except parts of Jammu, Kathua and Rajouri. In the plain areas of Jammu division pump sets can be installed for irrigation purposes.

This Chapter contains the tables pertaining to the electrification of the villages/hamlets, energization of pump sets and energy sold etc. Besides, the data pertaining to the availability of total hydro/thermal Installed Capacity in Jammu Division has also been reflected in this Chapter.

Table No. 13.00 This table presents Station-wise installed capacity of power and power generated.

Table No. 13.01 Year-wise/District-wise Power Tarrif realised Govt./Other than Govt. Deptts.

Table No. 13.02 Year-wise/District-wise number of Villages Electrified.

Table No. 13.03 Year-wise/District-wise number of Electric connections.

Table No. 13.04 District-wise Details of Pumpsets and Tubewell energized.

Table No. 13.05 Year-wise/District-wise Percentage of Households Electrified to total Households.

Table No.13.06 Year-wise/District-wise and category wise Energy utilization.

CHAPTER - XIV

JAL SHAKTI

The public health engineering sector is responsible for the collection of water, purification, transmission and distribution of water.

Supply of potable drinking water is one of the basic programmes of our developmental plans. Achievements of the Public Health Engineering Department indicate cent percent coverage of villages as per 1981 census.

This chapter presents data on coverage of villages and rural population, number of installations and year wise growth of tube wells and dug wells.

Table No. 14.00 presents no. of inhabited census villages covered under potable water supply and population benefitted.

Table No. 14.01 Year-wise/District-wise installation of Machine Drilled Hand Pump Wells, Shallow/Dug wells and production of tube wells

Table No. 14.02 presents District-wise number of households having access to safe drinking water 2024-25.

Table No. 14.03 presents Year-wise/District-wise no of Filtration Plants, OHTs and Reservoirs.

CHAPTER - XV

INDUSTRIES & MINERALS

Industries sector is the main vehicle for accelerating economic activity besides providing employment to the unemployed youth in the State. In Jammu division there is scope for small scale and cottage industries. The Directorate of Industries and Commerce which was earlier looking after the industries sector at the State level has now been segregated and a separate Directorate of Industries and Commerce has been set up for Jammu division as well. To restore industrial activities and to attract investment, the government has come up with a new eco-friendly industrial policy 2004 which will last till 2015. Setting up of Industrial growth centre at Samba in Jammu division is one of the major scheme towards development of industrialization in Jammu division.

This Chapter presents the statistical data on the following activities undertaken in the division:-

- i) Number of Small Scale Industrial units registered and employment generated from these units;
- ii) District-wise data regarding various co-operative societies viz, their membership production and State;
- iii) Data with regard to various handicrafts and handloom activities taken up;
- iv) Handloom/Handicraft training centres;
- v) Sericulture development; and
- vi) Khadi and Village Board.

The chapter also contains tables showing data with regard to shops and establishment Act.

CHAPTER-XVI

EMPLOYMENT

The registration of unemployed educated/uneducated youth for seeking employment assistance is one of the essential job assigned to the department of Employment. The department administers the Employment Exchanges. The Employment Exchange perform mainly three types of function viz. Registration of applicants and their placement, providing Vocational guidance to job seekers and collect employment market information data from establishment in the organized sector.

Career counseling has been made a regular feature of the department. It is with this objective that the nomenclature of the District Employment exchanges have been named as District Employment and counseling centre which could be a platform for imparting, coaching and guidance to the educated unemployed youth of the UT in shaping their career.

The department on regular basis prepare employment market information report on the basis of the information collected from the public/private sector establishments. Specific interventions through Government schemes and the special employment programmes like PMRY, REGP, SGSY, NREGS and the J&K state self employment scheme being implemented by Employment Department provides margin money, capital and interest subsidy assistance to the educated unemployed youth of the UT for establishing their own employment generating unit.

Table No. 16.00 presents Year-wise/District-wise data of Registrations and Placements made by employment exchange.

CHAPTER - XVII

POST & TELECOMMUNICATION

A post is a system for physically transporting documents and other small packages. A postal service can be public owned which means run by government or it can be privately run commonly known as courier service. Due to wide spread presence and accessibility of government run postal services in the far-flung areas of the country, the services like Saving Deposits, Fixed Deposits, Recurring Deposits and Insurance activities etc. has now become part of its functioning and has led to considerable addition to the domestic savings of the country.

Bharat Sanchar Nigam Limited a public run company is responsible for exchanging the information over significant distances by electronic means between the transmitter and receiver in India, besides, various private players also providing telecommunication services. A telecommunication service has supported the socio-economic development of India and has played a significant role to narrow down the rural- urban digital divide to some extent. It has also helped to increase the transparency of governance with the introduction of e-governance in India. The government has pragmatically used modern telecommunication facilities to deliver mass education programmes for the rural folk of India. Major sectors of Indian telecommunication industry are telephony, internet and broadcasting (television & radio station).

This chapter contains the information regarding the total number of telephone connections, internet connections and post offices in the Jammu Division.

Table No: 17.00 depict the information regarding Year-wise/District-wise Post and Branch-post offices.

CHAPTER -XVIII

FORESTS

Forest is a precious resource, which not only plays significant role in development process but also helps in controlling pollution and maintaining ecological balance. Since ages, it has donned the role of abater of floods & Soil erosion and simultaneously has been providing protection, products and recreation. Forest has been contributing substantially towards the economic development of the UT; in addition to this, it is also helping in enhancing the quality of the environment.

Forest in the Jammu division covers about 49% of the total geographical area. For maintenance of such a vast area, the department of forest has been established primarily concerned with preservation, supervision, development of forest and for better exploitation of its produce.

Table No: 18.00 depicts data regarding District-wise Area under Forest cover.

Table No: 18.01 represent data with regard to Out turn of Major /Minor Forest produce.

Table No: 18.02 shows data regarding Forest Division-wise Out turn of Major /Minor Forest produce

CHAPTER – XIX

TOURISM

Tourism is travel for pleasure. Tourism may be international or within the travelers country. Today, tourism is a major source of income for many countries and affects the economy of both the source and host countries. It brings in large amounts of money into their local economy (host country) in the form of payment for goods & services purchased by tourists. It also creates opportunities for employment in the service sector of the economy associated with tourism. The service industries which benefit from tourism includes transportation, hospitality and entertainment.

As far as India is concerned, its rich cultural heritage and varied physical features, which keep on changing as we travel far and depth, has made it one of the best places to explore. Taking a note of it, an enormous number of tourists visit India every year to enjoy the different forms of tourism like winter tourism, sustainable tourism, ecotourism, medical tourism, educational tourism etc. Besides, historical monuments also attract considerable number of tourists. Tourism in India is an integral part of Indian tradition & culture. Local people travel to participate in large-scale feasts, fair & festivals of different regions within the country.

Nature has adorned J&K UT with all its beauty and to take advantage of it, the UT government in 1970, established J&K Tourism Development Corporation. The main objective of this corporation is to run, manage & administer government hotels, promotion of tourism and provision of transportation for tourists. Tourism in our J&K, UT is one of the largest providers of employment, foreign exchange earnings and responsible for development of allied sectors such as handicraft, carpet industry etc. In order to attract more tourists, J&K government organizes winter sports on large scale in places like Gulmarg, Pahalgam, Tangmarg of Kashmir.

Division and Patnitop in Jammu Division. Besides the Jammu & Kashmir also attract pilgrimage tourism that includes tourist-performing yatra to Shri Amarnath Ji and Mata Vaishno Devi Ji Holy caves.

Table No: 19.00 The present chapter portrays information regarding Year-wise/Country-wise number of foreign tourists coming to Jammu Division

Table No: 19.01 the total number of Yatris who performed pilgrimage to Shri Amarnath Ji.

Table No: 19.02 Year-wise Tourists (Indian/Non-Indian) coming to Mata Vaishno Devi Ji Holy caves.

Table No: 19.03 Year-wise/District-wise number of Tourist huts/Bungalows/Hotels and Restaurant.

Table No: 19.04. Year-wise/District-wise Tourist footfall.

CHAPTER XX

CO-OPERATIVE

Co-operative is an autonomous association of person united voluntarily to meet their common economic, social and cultural needs and aspirations through a jointly – owned and democratically controlled enterprise. It has significance in poverty removal and intensifies faster socio- economic growth. Since its inception, there has been substantial growth of this sector in diverse areas of the economy. Co- operatives have been operating in various areas of the economy such as credit, production, processing, marketing, housing, dairying etc. Development of co-operatives has many benefits and the main among them is that it involves all sections of the society in a development process. In the new economic environment, co-operatives at all levels are making efforts to re-orient their functions according to the market demand. Co-operatives have an immense potential to deliver goods & services in those areas, which are still not discovered yet.

The present chapter reflects the contribution of Co-operative movement in the development process of the Jammu Division.

Table No: 20.00 depicts the Year-wise/District-wise number of societies, membership, owned funds and working capital.

Table No: 20.01 shows the total number of Primary Agricultural Credit Societies in-operation in Jammu Division.

Table No: 20.02 reflects the information regarding the financial structure of Non- Agriculture Credit Societies of Jammu Division.

Table No: 20.03 contains data regarding the total number of Marketing Co-operative Societies in-operation in Jammu Division.

Table No: 20.04 portrays Loans advanced/ overdue of Agricultural/ Credit Societies.

Table No: 20.05 illustrates total number of Godowns along with storage capacity available in 10 districts of the Jammu Division

Table No: 20.06 gives an idea about the number of Poultry Co- Operative Societies functional in each district of the Jammu Division

Table No: 20.07 shows District-wise Distribution of Fertilizer.

CHAPTER XXI

CD, NES & REVENUE

The State of Jammu & Kashmir was introduced to Panchayati Raj System in the year 1935, when for the first village Panchayat Regulation Act No:1, was promulgated by Late Maharaja Hari Singh. The main aim of the Panchayati Raj System is/was to take care of development process in rural areas. Further, to intensify it, **Community Development Scheme was started** at block level in the year 1952, with an aim to bring socio-economic transformation rather than modernization in countryside. Under this scheme, activities like promotion of agriculture, development of education & health, principle of self-help, self-reliance & community development was taken up. However, with the passage of time, it was felt that the purpose for which Community Development Programme was started had lost its relevance. It was also felt that all aspects of rural life were inter-related and no lasting results can be achieved, if individual aspect of it was dealt with, in isolation. Hence, **National Extension Organization** was established for intensive rural work, which could reach every farmer & assist in the co-ordination of development process of rural life as a whole. With this aim, **National Extension Services** were introduced at the block level, to make the rural people aware of their problems and indicating to them ways & means by which they can solve them. It thus not only involved educating the rural masses in determining their problems, but also the methods of solving & inspiring them towards positive action in doing so. Hence, both Community Development & National Extension Services became integral part of a programme for inspiring all aspects of rural life.

Rural Development Department is the enforcement agency of such schemes in our state. At present, there are 148 blocks functioning in 10 districts of Jammu Division.

The present chapter shows the Tehsil -wise existings Niabat, existing Patwar Halqas and Revenue villages' of the Jammu Province.

Table No: 21.00 contain information on Blocks, No. of Halqa Panchayat of each district of Jammu Province.

Table No: 21.01 contain information of no. of CD Blocks/ Villages-2011.

Table No: 21.02 contains information regarding year -wise Housing for all under PMAY-Urban and PMAY-Grameen.

Table No: 21.03 contains information of Percentage of Households with improved sanitation facility.

Table No: 21.04 contains information of Average Days of Employment Provided per household under MGNREGA.

CHAPTER XXII

FOOD CIVIL SUPPLIES & CONSUMER AFFAIRS

Food rationing through Public Distribution System is India's answer to the issue concerning the security of continuous food supply chain. Through this system, major commodities like wheat, rice, sugar, kerosene are distributed through a network of Public Distribution Shops commonly known as ration shops, to the general masses. Both central and state governments play an important role in regulating the functioning of public distribution system. As far as role of central government is concerned, it is responsible for procurement, storage, transportation and bulk allocation of food grains, while as state government holds the responsibility for distribution of the same to the consumers through the established network of fair price shops. State Governments are also responsible for operational responsibility that includes allocation, identification of family below poverty line, issuance of ration card, supervision & monitoring the functioning of fair price shops. The Public Distribution System has led to an uninterrupted availability of food grains to the far-flung areas, at a very low price, thus enabling the down trodden to have an easy accessibility to food. This chapter presents the summary on total number of population in Jammu Division covered under PDS, off – take of food grains from government sale depots & private fair price shops and total quantity of food grains imported.

Table No: 22.00 reveals the Year-wise/District-wise Percentage of Aadhaar seeded Ration Cards.

Table No: 22.01 shows the Year-wise/District-wise Rationed population Covered under NFSA.

Table No: 22.02 shows the Year-wise/District-wise off-take of food grains under TPDS & SSS.

Table No: 22.03 shows the Year-wise/District-wise Number of Godowns with FCI & CAPD.

Rationed Population in Jammu Division (2024-25)

CHAPTER – XXIII

SOCIAL WELFARE

Social Welfare as an organized function is regarded as a body of activities designed to enable individuals, families, groups and communities to cope with the social problems of changing conditions. But in addition to and extending beyond the range of its responsibilities for specific services, social welfare has a further function with the broad area of social development. In this large sense, Social Welfare has to play a major role in contributing to the effective mobilization and deployment of human and material resources of the region to deal successfully with the social requirements of change, thereby participating in nation building. In consonance to this idea, the Directorate of Social Welfare, Jammu was established and entrusted with the responsibility to carry out the implementation of schemes primarily associated with the upliftment to down-trodden / under privileged and weaker sections of the society especially destitute, handicapped children and women.

This chapter envisages the details of schemes implemented by the Directorate of Social Welfare, Jammu for upliftment of the weaker sections of the society like providing of Pre/Post-Matric scholarships to the students, upliftment of women folk by way of providing vocational training in fields like tailoring, cutting, knitting etc.

Table No. 23.00 contains the Year-wise/District-wise information regarding the number of ICDS Projects & Anganwadi Centres.

Table 23.01 shows the Year-wise/District-wise (no. of beneficiaries and amount disbursed) Pre-Matric scholarships provide to the students belonging to the weaker sections of the society like Scheduled caste, Scheduled Tribe and Other Backward Classes.

Table 23.02 reflects the Year-wise/District-wise (no. of beneficiaries and amount disbursed) Post-Matric scholarships provide to the students belonging to the weaker sections of the society like Scheduled caste, Scheduled Tribe and Other Backward Classes.

Table 23.03 reflects the Year-wise/District-wise number of Gujjar/Bakerwal Hostels & Hostliers.

CHAPTER – XXIV

FIRE STATISTICS

From earliest times, fire has been regarded as one of the elemental forces shaping life on earth. Fire possesses both powerful destructive and enabling properties, whether occurring within the natural and physical world or when ignited deliberately or accidentally by humans. Its captivating flames continue to fascinate us, its heat and light sustains our lives, its elemental energy underlines our technological civilization and, when in an uncontrollable state, fire can and has caused destruction, damage and loss of life of great magnitude. In order to control its uncontrollable state a fire department was created. This department deals with the safety of life and property from accidental fire and other natural/man-made disasters.

Fire department is organized in a system of administration, services, training and precautions. The department has to attend each and every sort of emergency/disaster like floods/flash floods, rescue from water, earthquake, chemical disasters, gas leakages, local accidents, droughts besides man-made disasters like war, bomb blasts etc.

This chapter present data on number of fire stations, fire attended, property involved, damage of property salvaged in Jammu Division with district wise details.

CHAPTER – XXV

JUDICIAL

The judiciary is the system of courts that interprets and applies the law in the name of the state. The judiciary provides a mechanism for the resolution of disputes. There are various levels of judiciary in our country- different types of courts, each varying power depending on the tier and jurisdiction bestowed upon them. They form a strict hierarchy of importance, in line with order of the courts in which they sit, with Supreme Court of India at top, followed by high courts of respective states with district judges sitting in District Courts, Magistrates of Second Class, and Civil Judges at the bottom. Courts hear Civil and Criminal cases, including disputes between individuals and the government. This chapter envisages the data regarding the institutions and disposal of Civil and Criminal cases and the number of cognizable crime cases reported. Both, Registrar, High Court and Inspector General of Police, Crime and Railways, J&K are associated with the maintenance of statistical information at primary level.

CHAPTER - XXVI

Bank, Insurance and Savings

This section presents data regarding operating and financial status relating to the banks and insurance. The data on operational and financial aspects of banks is obtained from the Reserve Bank of India. The Chapter contains information relating to district-wise statistics of bank branches, deposits and advances made by scheduled commercial banks, number of insurance policies with sum assured, net/gross sale proceeds of small saving certificates. The number of bank branches has gone upto 995 as against 50 in 1971. The deposits and advances of these banks have also registered considerable growth.

CHAPTER – XXVII

FINANCIAL STATISTICS

The Financial Statistics is the statistics focused on the analysis of financial data, instruments markets and risk management.

Financial Statistics develops the primary and final annual data on deficit/surplus and debt of the General Government sector. It also helps in developing annual financial accounts, preparing data on taxes and social contribution. This chapter gives data on plan wise outlay and expenditure incurred on various heads of development.

CHAPTER - XXVIII

YOUTH SERVICES AND SPORTS

The overall development of a child depends on both academic and physical education. Hence, in order to fulfill this motto a separate and full-fledged Directorate of Youth Services and Sports was established in 1973. The Directorate of Youth Services and Sports manages the physical education of students from primary to 10+2 level in both government and government aided institutions. In order to sharpen the skills of the educationalist that are associated with imparting it further to the students.

Table No: 28.00 indicates Year-wise/District-wise Sports Infrastructure.

Table No: 28.01 indicates the Participation of Youth at Different Levels.
